

REGISTRATIONS: Though equivalent in all other respects, the Herd Book maintains a permanent distinction between **Full Blood** pedigree animals with ancestry 100% traceable to French origin, and **Purebred** pedigree animals resulting from a grading up program. The registered name of Purebred animals will be followed by (PB). Progeny of a Purebred sire or dam can never be designated as Full Blood.

The poll/horn status is to be recorded as part of the registration. The poll/horn status can be amended if required and a new warranty issued. Up to the age of 12 months of age this is free of charge, and thereafter the normal fee for a replacement warranty applies. Polled animals must include either Poll or Polled in the name.

No calves can be registered as fullblood or purebred unless they are confirmed as being non-carriers for beta-mannosidosis, either by parentage or testing (copy of test results to be supplied).

To register a calf got by embryo transplant, the Embryo Registration Form No. and Embryo Number (e.g. 186/3) need to be supplied, and its registered name will be followed by ET.

THE GRADE REGISTER: Grade A, B and C females will be registered in the Grade Register. **Only Full Blood bulls can be used in a grading up program.** Though not recommended, a Purebred bull (31/32 or greater) may be used on a Grade C female and her heifer calf be registered as a Grade C.

Sire	Female calves registered as				
Full Blood	Grade C	Grade C	Grade B	Grade B	Grade A
Purebred (31/32 or more)	Grade C	X	X	X	X

Following its first calving, a Grade C cow may be designated as Purebred and transferred to the Herd Book, subject to passing an inspection for conformity to Breed Standard. Application for inspection must be made in writing to the Secretary. On passing the inspection, to effect the transfer the original warranty and transfer fee must be forwarded to the Secretary. This cow's calves can then be registered as Purebred according to the table. Grade C cows are transferred as 7/8 PB no matter what % Salers blood they actually are.
