

PLEASE TELL US WHAT YOU WOULD LIKE THIS SAMPLE TESTED FOR BY TICKING THE APPROPRIATE BOX

	TICK (✓)
<b>DNA SNP PROFILE</b> (This looks at 50,000 markers to create a DNA profile that can be used for future testing such as sire verification. This test is a mandatory requirement for all sires and is called a DNA 50k SNP)	
<b>MYOSTATIN</b> (This establishes the myostatin status of the animal. It is a mandatory requirement for sires, registration of pedigree bull calves unless they are MOP and all pedigree Society Sale male entries and females entries including production females where their myostatin status is unknown)	
<b>PARENTAGE VERIFICATION</b> (This is used to verify a particular sire or dam. If the parent's DNA is held on the latest style DNA test there will be no additional charge. If the parent's DNA is held on a different / old style test called an STR there may be an additional charge)	
<b>HORNED POLLED</b> (Please note there is an additional charge for this test which will be invoiced by your Breed Society)	
<b>BETAM</b> (Please note there is an additional charge for this test which will be invoiced by your Breed Society)
