WALLETS MARTS CASTLE DOUGLAS LIMITED

‘The Premier Marketing Centre for South West Scotland’

Castle Douglas market has long been established as the premier auction centre for South West Scotland. Our weekly prime sheep sale is the largest in the region and prices have consistently been ahead of many rivals. Our fortnightly store cattle and OTM sales attract regular buyers from throughout the country resulting in a very competitive ringside of bidders. Annual breeding sales of sheep and pedigree cattle also attract great interest. All in all our services and facilities are unrivalled making Wallets the ultimate marketing choice.

Please feel free to contact us directly at any time to discuss your marketing requirements.

SALE ORDER & ARRANGEMENTS

35th ANNUAL COLLECTIVE SALE OF 251 SALERS CATTLE

(held under the auspices of the Salers Cattle Society of the United Kingdom)

IN SALE ORDER

208 x Commercial Breeding Females

Comprising:

30 x In-Calf Heifers

178 x Bulling Heifers & Heifer Stirks

Followed by:

17 x Production Pedigree Females

4 x Haltered Pedigree Females

22 x Pedigree Bulls

FRIDAY 6th NOVEMBER 2026

Show – 11.00

AGM – 15.00 (Canteen, Wallets Marts)

Dinner at the Ernespie House Hotel – 18.30 for 19.00

(Tickets available from Siân 07903 626249)

SATURDAY 7th NOVEMBER 2026

Commercial Judging (*pens of 4 and above*) – 08.30

Parade of Bulls –10.00

Sale –11.00

PURCHASER'S SLIP

**AFTER THE FIRST PURCHASE PLEASE HAND THIS
FORM TO THE AUCTIONEER**

NAME:

ADDRESS:

.....

.....

POSTCODE:

E-MAIL:.....

TEL NO:

MOBILE TEL NO:.....

HOLDING NUMBER:.....

NOTICE TO PURCHASERS

All stranger's cheques must be guaranteed by Banker's Reference.

We wish purchasers to know that all Pedigree adult cattle in this catalogue, at the sale have either been D.N.A tested or are clear by parentage for a genetic condition which rarely occurs in Salers Cattle, known as BETA-MANNOSIDOSIS

SALE RULES

- All pedigree animals must be halter trained and shown.
- Any animals showing signs of bad temperament will be rejected and removed from the premises. The Society decision will be final.
- All pedigree animals must be registered with the Salers Cattle Society of the UK.
- All the above rules will be strictly enforced.
- All animals will be sold in accordance with the terms and conditions of the National Beef Association, copies of which are available from <https://www.nationalbeefassociation.com/resources/nba-terms-conditions-of-sale/>

NOTICE TO EXHIBITORS

- All bulls and females in the pedigree section (this excludes commercials and production females) must be halter trained and wear a nose leader / nose clip / nose snip when shown.
- The halter will become the property of the purchaser after the sale.
- It is the sole responsibility of the vendor to ensure that animals are haltered when they are delivered to the purchaser.
- The Auctioneers do not hold themselves responsible for any errors they may find.
- Prior to the numbering of the animals it is essential the exhibitor should ascertain that each animal is in the correct stall.
- Ear marks must be checked prior to sale.
- It is recommended that all stock men and women wear white coats.

SALERS CATTLE SOCIETY PRE-SALE INSPECTION GUIDELINES

Veterinary Inspection

1. Overshot or undershot jaws or other abnormalities.
2. Defective genital organs
3. Any other veterinary defects including warts, umbilical hernia and other hereditary conditions.

Breed Inspection

1. Faulty, illegible or incorrect ear tags.
2. Any animal exhibiting temper or unruly behaviour.
3. Any animal not exhibiting accepted breed characteristics.
4. Any animal below a reasonable standard of physical condition.
5. Any animal regarded as below the required standard due to either inferior or defective conformation. This covers every point of conformation including the ability to stand and walk properly.
6. Any animal that is not showing reasonable growth of age.
7. Any animals that is unsound, or appears ill, or under the influence of sedation

NOTICE OF GRADE REGISTER

A grade Register is in operation for grading Salers cross females up to purebred status. An 'A' after the Herd Book number and Ear number indicates that the female is 50% ($\frac{1}{2}$) Salers. Subsequently a 'B' indicates that the female is 75% ($\frac{3}{4}$) Salers. In accordance with the E.E.C regulations, the heifer calf born to a 75% ($\frac{3}{4}$) Salers dam is considered purebred Salers at 87.5% ($\frac{7}{8}$); she must also be inspected. Males achieve purebred status at the next cross 93.75% ($\frac{15}{16}$). Only 'Full Blood' bulls may be used to grade up females. 'Full Blood' indicates pure French breeding. Calves, which have purebred, as opposed to full-blood breeding in their pedigree cannot reach full-blood status, but in every other respect they are treated in exactly the same manner.

HEALTH STATUS

Johne's

All cattle entered and presented at this sale must be from vendors who are: "members of the CHeCS Herd Scheme, and who comply with the current Salers Society Ruling for BVD FREE sales, and have established their Johne's herd status and are actively monitoring and culling diseased animals from the herd"

BVD

All cattle entered for the sale MUST be from a BVD CHeCS accredited herd or have been individually tested BVD Antigen negative. All such animals MUST be fully BVD vaccinated at least two weeks prior to the sale. Females that are sold in-calf or running with the bull must be from a BVD accredited herd or individually tested BEFORE service, with the BVD status of the bull being determined BEFORE he serves any females that are to be sold.

- CATTLE NOT FULFILLING THIS CRITERIA WILL NOT BE ELIGIBLE FOR THIS SALE.
- ALL DATES OF VACCINATIONS MUST BE GIVEN DIRECTLY TO THE MART OFFICE ON ARRIVAL AT THE MARKET.

TB

Vendors must comply with all pre and post movement testing in accordance with <https://www.gov.scot/publications/bovine-tb/pages/testing-surveillance/>

Bluetongue

Vendors must comply with bluetongue regulations
<https://www.gov.uk/guidance/bluetongue-latest-situation>

**FAILURE TO COMPLY WILL RESULT IN ANIMALS BEING REJECTED
FROM THE SALE.**

VENDOR HERD HEALTH DECLARATION

Vendor	Address & Health Details	Pedigree Index
Messrs R A Austin	(Girthon) Boreland of Girthon, Gatehouse of Fleet, DG7 2DS - Herd tested clear from TB January 2024 - Currently on a 4-year testing interval - Member of SAC Premium Cattle Health Scheme - BVD VMF, vaccinated sale animals - Johnes risk level 3	
Beeston Hall Farms	(Beeston Hall), Beeston Hall Farm, Ripponden, Halifax, HX6 4LW - Herd tested clear from TB April 2024 - Currently on a 4-year testing interval - Member of SAC Premium Cattle Health Scheme - BVD accredited since 05/04/2013, vaccinated sale animals - Johnes risk level 3	Lot 22
P A Boyd	(Drumaglea) Drumaglea, Cornaigmore, Isle of Tiree PA77 6XA - Herd tested clear from TB Jan 2024 - Currently on a 4-year testing interval - Member of SAC Premium Cattle Health Scheme - BVD accredited since 28/12/07, vaccinated sale animals - IBR accredited since 22/05/17 - Lepto accredited since 22/05/17 - Johnes risk level 1, since 06/06/2014 - Johnes risk level 1* since 07/01/2026	Lots 1, 2, 3, 4, 5 & 6
Firm of Andrew M Brown	(Drumhumphry) Drumhumphry, Corsock, DG7 3HZ - Herd tested clear from TB December 2025 - Currently on a 4-year testing interval - Member of SAC Premium Cattle Health Scheme - BVD accredited since 2010, vaccinated sale animals - Lepto vaccinated sale animals - Johnes risk Level 1 since 2012, - Johnes risk Level 1* since 08/12/2025	
Farmstock Genetics	(Cumbrian) Farmstock Genetics, Over Whitlaw, Selkirk, TD7 4QN - Herd tested clear from TB January 2025 - Currently on a 4-year testing interval - Member of SAC Premium Cattle Health Scheme - BVD accredited since 03/10/16, vaccinated sale animals - Johnes risk level 1, since 12/01/2021 - Johnes Risk Level 1*, since 01/10/2025	Lots 19, 41, 42, 43
Carolyn Fox	(Manor Lane) Manor House Lane, Dry Doddington, Newark, NG23 5JA - Herd tested clear from TB March 2026 - Currently on a 4-year testing interval - Member of SAC Premium Cattle Health Scheme - BVD accredited since 2013, vaccinated sale animals - IBR accredited since 2017, vaccinated sale animals - Lepto accredited since 2011 - Johnes risk level 1, four consecutive years	27

Disclaimer: The health information in this catalogue is supplied by or on behalf of the breeder. The health status of individual animals may differ from the herd declarations. The responsibility for the accuracy rests solely with the vendor and not the Salers Cattle Society of the UK or Wallets Marts

BREEDPLAN

UNDERSTANDING THE BREEDPLAN PERFORMANCE RECORDING INFORMATION IN THIS CATALOGUE

Only Salers GROUP BREEDPLAN EBVs with Accuracy (Acc) can be validly compared between herds.

ESTIMATED BREEDING VALUES (EBVs)

The EBV is the best estimate of an animal's genetic merit for that trait.

ACCURACY

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives. Accuracy below 75% should be considered low.

CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

DIR: Direct calving ease indicates how this animal influences the birth of its progeny.

DTRS: Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

BIRTH AND FERTILITY

GL: Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

BWT: Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

SS: Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

GROWTH

MILK: 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

200: 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400: 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600: 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

MWT: Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Smaller, or more moderate EBVs are generally more favourable.

CARCASE

CWT: Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

EMA: Eye Muscle Area EBV (cm²) estimates genetic differences in eye muscle area of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals.

FAT: Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RBV%: Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase size.

IMF%: Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13th rib site in a 300kg carcase. Depending on market targets, larger more positive values are generally more favourable.

The Salers Cattle Society GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Salers Cattle Society nor the ABRI oversee or audit the collection of this data.

Disclaimer: The health information in this catalogue is supplied by or on behalf of the breeder. The health status of individual animals may differ from the herd declarations. The responsibility for the accuracy rests solely with the vendor and not the Salers Cattle Society of the UK or Wallets Marts

DRUMAGLEA PRODUCTION FEMALES

Mr. P. Boyd

1 Drumaglea Ultimate

AI Horned Red

Born

UK541069100806

Myostatin: M0P

16/03/2024

gs. Flamenco(0709544471)

Sire - Icare(SIM201205)

gd. Flavie(0709544453)

gs. Halley(SIM201202)

Dam - Drumaglea Niamh(UK541069300654)

gd. Drumaglea

Corrinne(BCT2013003)

Well named as Ultimate, this outstanding heifer combines length and thickness. Her dam, Niamh, has bred quality males and females and I expect Ultimate to do likewise. Inseminated to Marechal on 22/04/2026 and is in-calf. Fully vaccinated with Bultavo 3.

Mr. P. Boyd

2 Drumaglea Usherette

AI Horned Red

Born

UK541069300808

Myostatin: M0P

20/03/2024

gs. Precieux(1519037173)

Sire - Baron(SIM200602)

gs. Baron(SIM200602)

Dam - Drumaglea Rebecca(UK541069500733)

gd. Drumaglea

Corrinne(BCT2013003)

Upbeat is a big strapping heifer with good conformation that will keep size in the breeding. She is a full sister to Tokay sold at Castle Douglas last year. Hibou is known for leaving good udders and well placed teats. Inseminated to Halley on 07/05/2026 and is in-calf. Fully vaccinated with Bultavo 3.

Mr. P. Boyd

4 Drumaglea Unpicked

AI Horned Red

Born

UK541069700819

Myostatin: M0P

19/05/2024

gs. Flamenco(0709544471)

Sire - Icare(SIM201205)

gd. Flavie(0709544453)

gs. Hibou(SIM201204)

Dam - Drumaglea R-girl(UK541069100736)

gd. Drumaglea

Chelsea(BCT2013012)

Her dam is a half sister to Drumaglea Nuggett who sold for 10,000gns at Castle Douglas 2020. Unpicked is a great thick heifer and has done extremely well since turnout. She was inseminated to Pongo on 25/07/2026 and is in-calf. Fully vaccinated with Bultavo 3.

DRUMAGLEA PRODUCTION FEMALES

Libby(UK126061700926)

Upendo is the first offering from the Beeston Hall Herd for a number of years. He is out of one of our favourite cows, Beeston Hall Raven, who was at the Highland show this year with her heifer calf. His sire is a french bred bull Nemo, who consistantly produced cow makers now retained in our herd. We believe Upendo will follow this trait and will be a welcome addition to anyone wishing to remain true to the Salers maternal breed.
